

I am opposed to removing the "established business relationship" qualification from the fax regulations. This is bad for business, forcing associations to obtain the written consent of their own members, clients and industry partners before transmitting any fax that could be interpreted as commercial in nature. The association community has already raised numerous concerns about the new regulations that remain a subject of speculation, including exactly which transmissions the FCC would interpret as commercial in nature.

I support efforts to reduce spam but the removal of established business relationships is a bad move and should not be pursued.
